Agenda - beyond chat

- Custom instructions
- Custom prompts
- Agents
- Skills
- MCPs
- Future ... (agentic, ...)
- Context: Security ... but could have been any other

Copilot *Custom Instructions*

- Guides for Copilot for the interactions with AI
- Goal
 - Coding standards
 - Specific rules for languages
 - Documentation guides
- Applies to all conversations
- Autogenerated (and manually improved)
- Be aware of the context window

Custom agents

- Specify:
 - Work contexts
 - Model specific/ toolsets
 - *Personas*
- Goal
 - Specific workflows
- Where
 - Coding agent local
 - Agents HQ
 - Org-wide

Custom Skills

- Define
 - Specific actions
 - Reusable skills
- Goal
 - Extend the agent's capacities
 - For specific tasks
 - Single responsibility
- Where
 - Triggered by the agent on specific contexts
 - Intent oriented

Model Context Protocol

- Standard open-source para LLMs
- Connects LLMs with data sources and tools
 - GitHub
 - Azure
 -
- Goal
 - Automate third party actions with agents
- Where
 - VS Code integrated
 - Local
 - Remote (recently...)

Talk is cheap
Show me the ~~code~~ vibe
